## Analysis results week 6

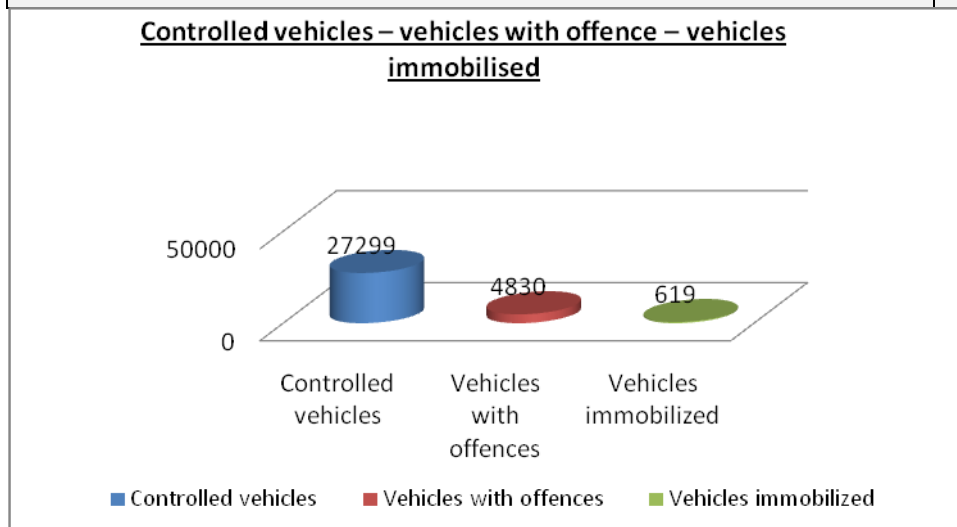

### Assumed subject and objectives

From reports of serious accidents because of overloading it is obvious that roadside inspections on this subject are an important instrument to reduce damages in road traffic.

The overloading of a vehicle does not only affect the fair competition between hauliers, it is also a big issue when talking about road safety. Some of the technical conditions of the vehicle are clearly damaged like the brakes or tyres.

### Overview controlled vehicles – vehicles with offences – immobilized vehicles

Amount of controlled vehicles	27299
Amount of vehicles with offences	4830
Number of vehicles immobilized	619

ECR Secretariat: Benelux General Secretariat - Rue de la Régence 39, 1000 Brussels, Belgium
